

## **HISTORY OF NATIONALISM**

Today's message is a reminder of the importance of nationalism. It is a reminder that nationalism is a Divine Institution concept for the post-diluvian civilization (after the Noahic flood), our civilization.

As post-diluvian Christians, we must understand that internationalism and globalization (one world governing) is evil (Tower of Babel) (Gen.11). A wonderful thing happened recently that gave me hope for Great Britain. They returned to nationalism. Pray that they not waiver in their decision.

**This lesson will remind us of two basic truths associated with the History of Nationalism.**

### **1. The origin of nations is given in the 3rd and 4th Toledoths of the second manuscript of the Book Genesis (Gen.6:9-11:9).**

We are reminded that all nations came by boat to a new world (by way of the Ark of Noah). Noah's Ark took form during the antediluvian old world and delivered them into the post-diluvian new world. Mt Ararat became their Statue of Liberty (freedom).

On 2/27/601 [1<sup>st</sup> day, 1<sup>st</sup> month of Noah's age], they were welcomed as pilgrims seeking spiritual liberty by the Grace of God into a new land of opportunity. (Gen.8:13-16)

### **2. Seventy nations came from the three sons and descendants of Noah: Japheth, Ham, and Shem (Gen.10).**

Gen.10 gives us the origin of all post-diluvian nations.

All post-diluvian nations have the same three national identifications: (Gen.10:5, 20, 31).

- land,
- language
- lineage

(Gen.10:31) "These are the sons of Shem, according to the families (lineage), according to their languages, by their lands, according to their nations."

I mentioned Shem because the Shemites carried the message of the gospel of Christ (Luke 3:35, 23).

Because of the influence of the Reformation and the English language upon the modern post-diluvian world, God used free enterprise commerce and Christian missionaries with the message of gospel of Christ to reach "the ends of the earth."
